Practical Guide 10

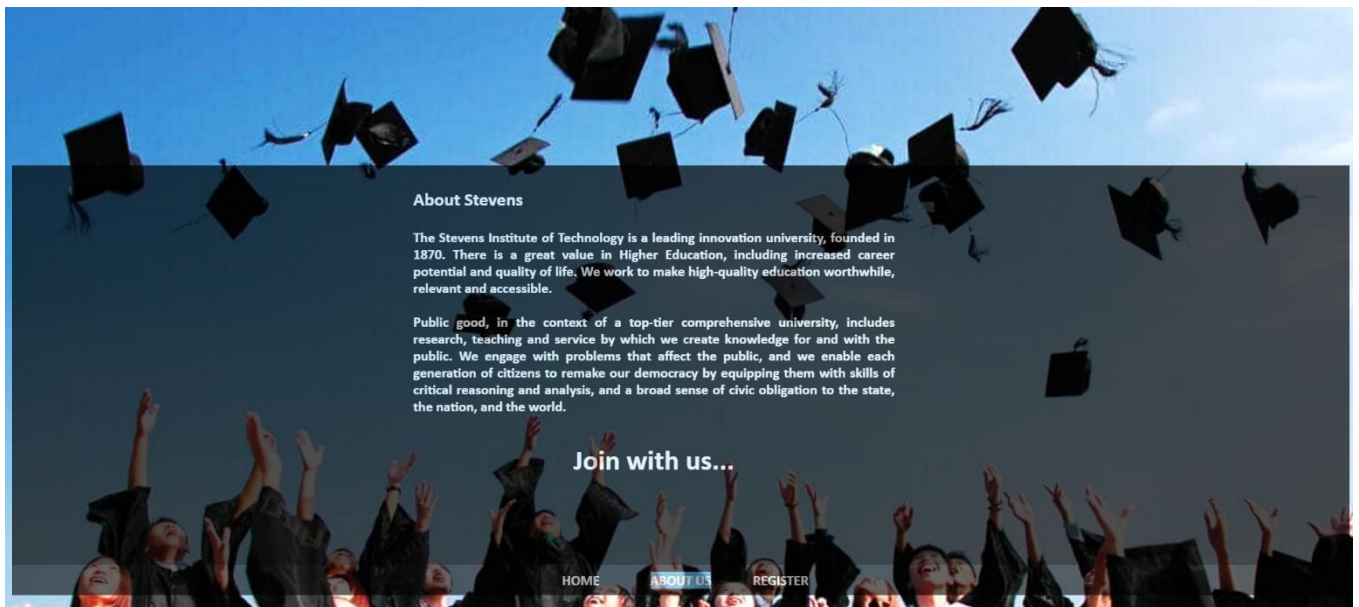

There are three web pages named as Home.html, About_us.html and Register.html as given in the following figures.

- The three links HOME, ABOUT US and REGISTER has to be displayed as given in the figures in each and every page.
- When the mouse is over a link, the background color of the link should be changed to a different color
- Once the user clicks the links, the relevant page will be loaded on top of the same page. The new page should not be loaded in a new tab.
- Use the “div” tags to arrange the divisions of these pages.
- All the formatting of this website should be done using CSS.

Home.html

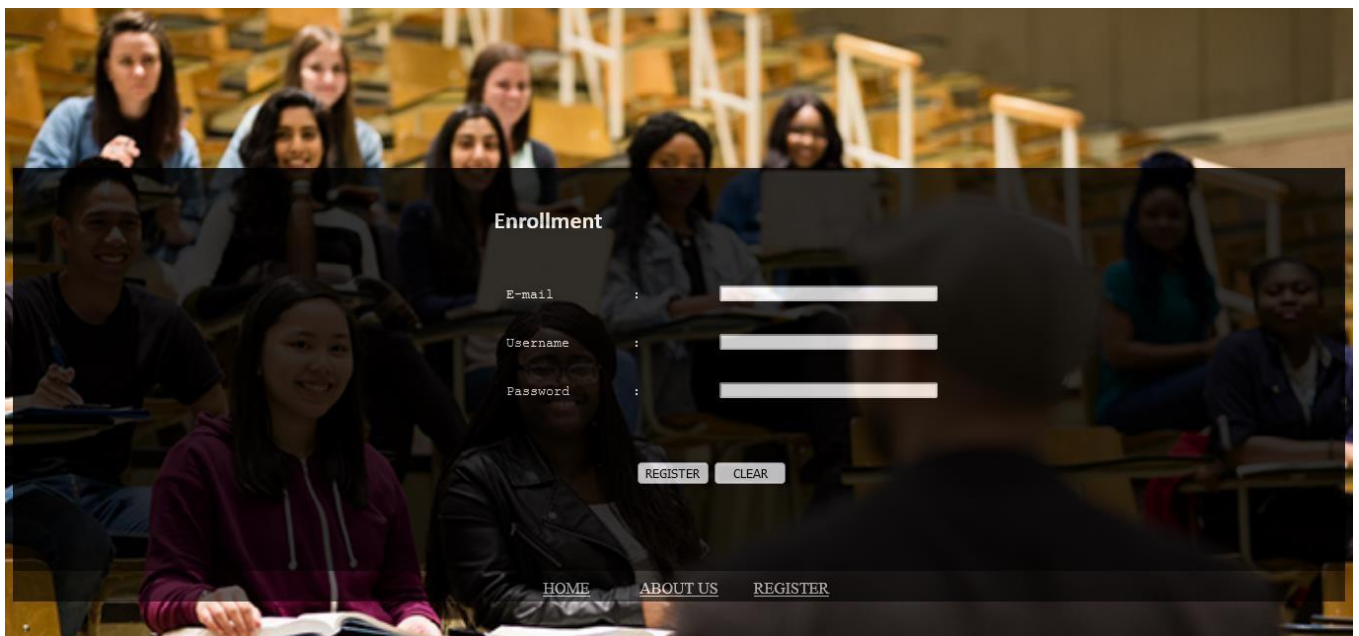

About Us.html

- In ABOUT US page, the word Join has to be a link. Once the user clicks on the Join link it must be directed to the Register.html page.

Register.html

- It should include a form with three fields E-mail, Username and Password and two buttons as REGISTER and CLEAR.
- When you press CLEAR button text field should be clear.
